TEARFUL WEATHER.

Experienced by the Steamer Amur on the Last Voyage.

PHILADELPHIA, Dec. 24.—The British steamer Amur dropped anchor off Gloucester last night. The outward appearance foretold the thrilling experience she had with the elements on December 19, when on the southern edge of the Gulf stream, the ship had a narrow escape from destruction by a waterspout, which fortunately passed under the stern not many yards from the ship, and a hot race with the engines was open.

The same evening she ran into a storm. The seas furiously swept the decks. It is stated that everything on board was above water and the vessel nearly foundered.

MONTANA'S CONTEST.

The State Supreme Court in Favor of the Republicans.

HELENA, Mont., Dec. 24.—The Democrats got a black eye in the contested election case yesterday. John Henry, registry agent and one of the judges of election at Box Elder precinct at the recent election, was put on the stand. The check lists, official register and poll book showed the names of sixteen alleged illegal voters, five of whom came from miners and voted at Box Elder. He knew every one of the alleged illegal voters personally.

A decision in the case was reached this morning, when the court issued a writ to compel the canvassers of Chouteau county to meet and canvass the vote of Box Elder precinct. This is a victory for the Republicans, as with this precinct counted it elects a Republican and gives them the legislature.

THE NEW CRUISERS.

The Cramp Firm Not Worried About the Contracts.

PHILADELPHIA, Dec. 24.—Charles Cramp, president of William Cramp & Sons, ship and engine building company, said today in speaking of the contracts for the cruiser Iowa and battleship Brooklyn, that dispatches from Washington stating that the secretary of the navy

had expressed a desire to award a contract for building one of these ships to the Union Iron Works of San Francisco were intentionally incorrect. "I am not worrying," said Mr. Cramp, "for I am sure the contracts for both ships will be given to our firm according to law and right, and I am waiting with calmness the formal notice from the department to that effect."

There has been no delay in awarding the contracts. It has been the invariable custom to lay all bids before the law officer of the navy department, who investigates them, and the result of his labors is placed before the secretary. This generally requires two weeks. We are not agitated concerning the matter, and neither does the secretary appear to be worried or worrying himself about it. Mr. Tracy, being a thorough lawyer, will know exactly what to do, and we are content to leave the matter in his hands."

WILL THEY FIGHT?

Newton Refuses to Sign a Contract for the McAllister-Burge Fight.

NEW YORK, Dec. 24.—Jack McAllister, lightweight champion, attached his signature to a document late tonight, "which is supposed to be the final articles of agreement to be signed by the champion and Dick Burge, of England, but in reality they are not worth the paper they are written on, so far as a contract is concerned. There was some lively discussion between Newton and McAllister before the latter signed."

McAllister demanded that Burge should put a forfeit of \$10,000 to guarantee his appearance and be down to the stipulated weight of 135 pounds. Newton said this would be satisfactory but said Burge must be present to agree to such terms, and he did not think Burge would be satisfied.

McAllister wanted Newton to have this stipulation put in the articles and also wanted the fight to take place between March 27 and April 3. Then occurred a lively squabble and the result was that Newton threw down his pen and refused point blank to complete the contract.

MONTREAL, Dec. 24.—The *Witness* tonight publishes a long interview with Rev. Douglas, principal of Wesleyan theological college here, in which that well-known clergyman bitterly attacks Sir John Thompson, the New Canadian premier. The attack is made because Thompson is a Roman Catholic. Douglas says he regrets the appointment of a man with no record; says the feeling of lack of confidence is widespread in the Dominion. Concluding his remarkable utterances, Rev. Douglas says: "We can only trust and believe he will not be in the position long."

AN IMPORTANT DECISION.

Half Breed Indians Entitled to Allotment of Land.

EL PASO, O. T., Dec. 24.—In the case of Morrison vs. Wilson in the United States court here Judge Birkhof held that a male child born to a white citizen of the United States who had married a female member of the Arapahoe tribe might still be a member of that tribe and entitled to an allotment under treaty as member of the tribe; that the laws of descent in Oklahoma applied to Indians and that administration of Indian descent was entitled to possession of lands so allotted.

The decision was rendered in an ejectment suit involving 160 acres of land adjoining El Paso of great value, and is of great importance, as a similar question is pending in all the courts of the west where allotments have recently been made. The decision is contrary to a decision in the northwest under a similar treaty with the Sioux.

Williams was to receive a salary of part of the profits. The firm claimed to be losing money on the venture and paid him none of the profits, and reduced his salary. TWO WIDOWS.

Both Lay Claim to the Estate of a Wealthy Hoosier.

The French woman now appears upon the scene laying claim to one-third of the estate as the widow of Cox.

Scarcely had she entered proceedings in the circuit court, before Mrs. Lousenberry, of Chicago, appeared and made a similar complaint. The last named claim to have married after Cox's death. Long and costly litigation is anticipated.

THE UNITARIAN CHRISTMAS TREE.

The Unitarian Sunday school had its Christmas tree yesterday afternoon at the parlors of the Metropolitan hotel at which about two hundred people were present. A real live Santa Claus distributed the good things from a large and beautiful tree.

But the most unique part of the entertainment was the drama "A Noble Outcast" performed by Channing L. The children ranged from 12 years downwards and the play elicited no end of applause and although it was a drama with considerable raciality interspersed, also great amusement and laughter.

A Merry Christmas.

Drs. Mansfield & DeMonco Give the People of Salt Lake City and Vicinity the Advantage of

LOW RATES DURING THE HOLIDAYS.

Sketch of a Plan That Has Won Great Popularity—Presentation of the Proof.

There are many people in Salt Lake city who are suffering from chronic diseases and who do not know where to find a cure.

Every one of such should be open to conviction if proof is presented to him in support of what is said by physicians who assert that they can furnish that cure.

To these Drs. Mansfield & DeMonco address themselves in this article. They say that they have a system of treatment which works better results in chronic cases than any that is known today. That system is based upon the signs and symptoms of the disease, and the advantage of it involves a consultation and examination intelligently applied, professional treatment and a supply of the best of medicine for a nominal fee per month until a cure is effected. The fee is so low that it is within the means of the poorest, and the service is such that in the whole history of the practice of Drs. Mansfield & DeMonco in Salt Lake city there has never been a complaint of inefficient treatment or of a useless visit.

Drs. Mansfield & DeMonco do not hold out brilliant promises for the purpose of securing large numbers of patients who will pay for one month's treatment only and then cease their visits, for their work is so satisfactory in every case that four-fifths of their practice is composed of patients who return treatment after a month's trial.

The Proof.

The proof of their ability and skill in the treatment of chronic diseases is furnished in columns after columns of published reports regarding which this fact should never be overlooked. Those who furnish the testimonials are people who live in this city and are known to the community. Their names and addresses are given for absolute identification, who can be seen and conversed with and who will confirm in personal conversation to any one who may call upon them every word that has been said for publication. The cures effected by Drs. Mansfield & DeMonco are so numerous that space could be occupied by them if the space could be secured. These cures are published as they are desired to be published by the happy subjects who want the whole world to know that they can save much suffering by personally coming forward and declaring that those physicians have furnished relief where others failed.

This is a Merry Christmas to Mrs. R. E. Williams, who Gives the Following Statement.

A case of more than ordinary importance is that of Mrs. R. E. Williams, who resides at 707 East Brigham street, this city.

Mrs. Williams says in conversation with a reporter, "I had been sick and miserable for five years but in the past three years I grew worse so rapidly, and everything failed so utterly to help me that all hope left me."

Three years ago I had a severe attack of typhoid fever, and since that time my case took a more aggravated form, confining me to my bed several times during each year.

"I had dull heavy pains in my head all the time, with sharp piercing pains in my eyes, which nearly crazed me. There were ringing noises in my ears constantly, and my eyes burned and ached and became so weak I could hardly see. Hand lumps formed in my arms, and my stomach completely closed upon me. I was a discharge from my nose that was annoying."

"Constant drooping of the muscles in my throat was always hanging and spitting, my throat was sore and inflamed and I could scarcely swallow. Every breath I took brought the back of my throat and choke me. I would often have violent spells of coughing. I had intense pains in my chest and in my back. I had an ache and a pain. My appetite was all gone. I was troubled with indigestion and soreness of the stomach. What food I ate often made me very sick. At night I could not sleep. After retiring I would have chills in my back, not a cold, but a very severe chill, and I was very nervous. Night sweats came on which made me very weak and nervous."

"I lost in flesh and weight, and I felt weak and feeble. It was quite a struggle for me to go about at all. I always felt tired and worn out and would get nervous that the least thing would excite me."

"All the treatment I had seemed to have no effect upon me. I was completely closed upon me. I was a discharge from my nose that was annoying."

"One of my friends, who had been treated successfully by Drs. Mansfield & DeMonco, advised me to go and see them. I began their treatment, knowing that it would require some time and patience to accomplish the good results that they assured me. Upon finding that Drs. Mansfield & DeMonco were the only ones who could cure me in any respect I followed their treatment more carefully and regularly, until now I feel as if I am a new woman. I am very grateful to Drs. Mansfield & DeMonco, for they have made me a new woman in my case. I can now do anything I wish to do, and I am glad to be able to do so. To anyone calling on me at 707 East Brigham Street, I will gladly verify this statement."

Mrs. R. E. Williams
